

black ember
ARCHITECTURAL EMBOSSED RANGE
BY HURFORD'S

A cladding product crafted for modern Australian spaces.

Available in two patterns, this embossed, black-finished cladding creates a bold architectural statement across both interior and exterior applications, introducing depth, texture and refined design intent.

The advanced surface treatment ensures the texture and finish remain vivid and tactile for years, even in demanding environments.

Crafted from highly durable Australian hardwoods which are rated for use in BAL 29 areas.
